## EMPLOYMENT

### **Freelance/Contract Designer**

web design/development, UI, UX, identity, collateral  
2001–present

Worked on a variety of projects from websites to mobile app concepts to online game user interfaces. Clients have ranged from local small businesses to start-up ventures to fortune 500 companies.

### **Hewlett-Packard**

UI design, graphic design, web design  
June 2010–present

Designed the user interface for multiple applications on a variety of mobile devices and PCs—Windows, Windows Phone, Android, iOS and WebOS. Worked with the product marketing team to define the user experience for HP's cloud music solution. Delivered mock-ups, graphical specifications and assets to the development teams and worked closely with them to ensure pixel-perfection.

### **Melodeo**

UI design, graphic design, web design  
January 2007–June 2010

Designed websites, mobile applications, brands and various marketing materials for a variety of products ranging from streaming podcast services to mobile video social media applications. As the sole designer working directly with both engineering and marketing groups, I designed and produced everything visual, company-wide.

### **Digeo**

UI design, graphic design  
May 2000–December 2006

Collaborated with a small design team to develop an Emmy award winning user interface for a television-based media center. Solved complex navigational anomalies. Designed elements for the look and feel of the product. Designed and produced interactive demos to simulate use-cases and UI functionality. Designed user manuals and data sheets. Managed other print and production projects such as business papers and building signage.

### **Experience Music Project**

design internship  
June 2003–September 2003

Worked in the design department to produce various print projects for the museum including: the monthly newsletter, wayfinding signage and event programs.
